

Exchange AT SSE

The Stockholm School of Economics (SSE) is ranked as the best business school in the Nordic and Baltic countries. SSE educates talented women and men for leading positions in the business community, politics, NGOs and the public sector, and has done so since 1909. Our school has earned a reputation for excellence, both in Sweden and around the world.

WELCOME TO THE STOCKHOLM SCHOOL OF ECONOMICS

All education relies on relevant and current research, and the high quality of SSE's programs can be maintained because of its collaboration with Swedish and international corporations as well as its dedicated professors and researchers. Further evidence of SSE's high quality is the School's EQUIS (European Quality Improvement System) accreditation, which warrants that all degree programs and research are of top international standard.

SSE works with the international business community as well as highly ranked universities and business schools around the world. Every year SSE welcomes about 250 exchange students, many of whom study within the framework of PIM (Partnership in International Management), a network of business schools from all over the world.

SSE is the only Swedish university in CEMS (The Global Alliance of Management Education), a community of leading business schools and multinational corporations. SSE is also the only Nordic representative in ICEDR (International Consortium for Executive Development Research).

LEARNING EXPECTATIONS

Exchange students study under the same standards as the Swedish students and they need to be fluent in English to follow the courses at SSE. They are required to take courses corresponding to 30 ECTS; i.e. 15 ECTS per period. In general, 15 ECTS per period will require at least 40 hours of study per week (classes included).

Some courses are characterized by traditional teaching, with lectures, written course assignments and seminars. In other courses the teaching is to a great extent based on cases; active participation in class is expected and contributes to the final grade. Many of the courses require substantial preparatory reading.
