ABOUT US

The RUCONNECT program aims to assist exchange students as they arrive at RU and connect them with local students in order to maintain strong and meaningful global friendships.

HOW DOES IT WORKS?

The program is tailored for each semester and is based on the well known 'buddy programs'.

OUR AIM

The program aims to provide all its participants with a chance to create meaningful worldwide friendships.

RUCONNECT wishes to provide a supporting net for Exchange students, allowing them to get to know the country- its cultural, religious and social, blend in a balanced formal and informal way, through a variety of events that take place during the semester.
