# Percentage of Age-60 Chinese Women with No Born Sons by Year of Her 60<sup>th</sup> Birthday: Illustrative Calculation

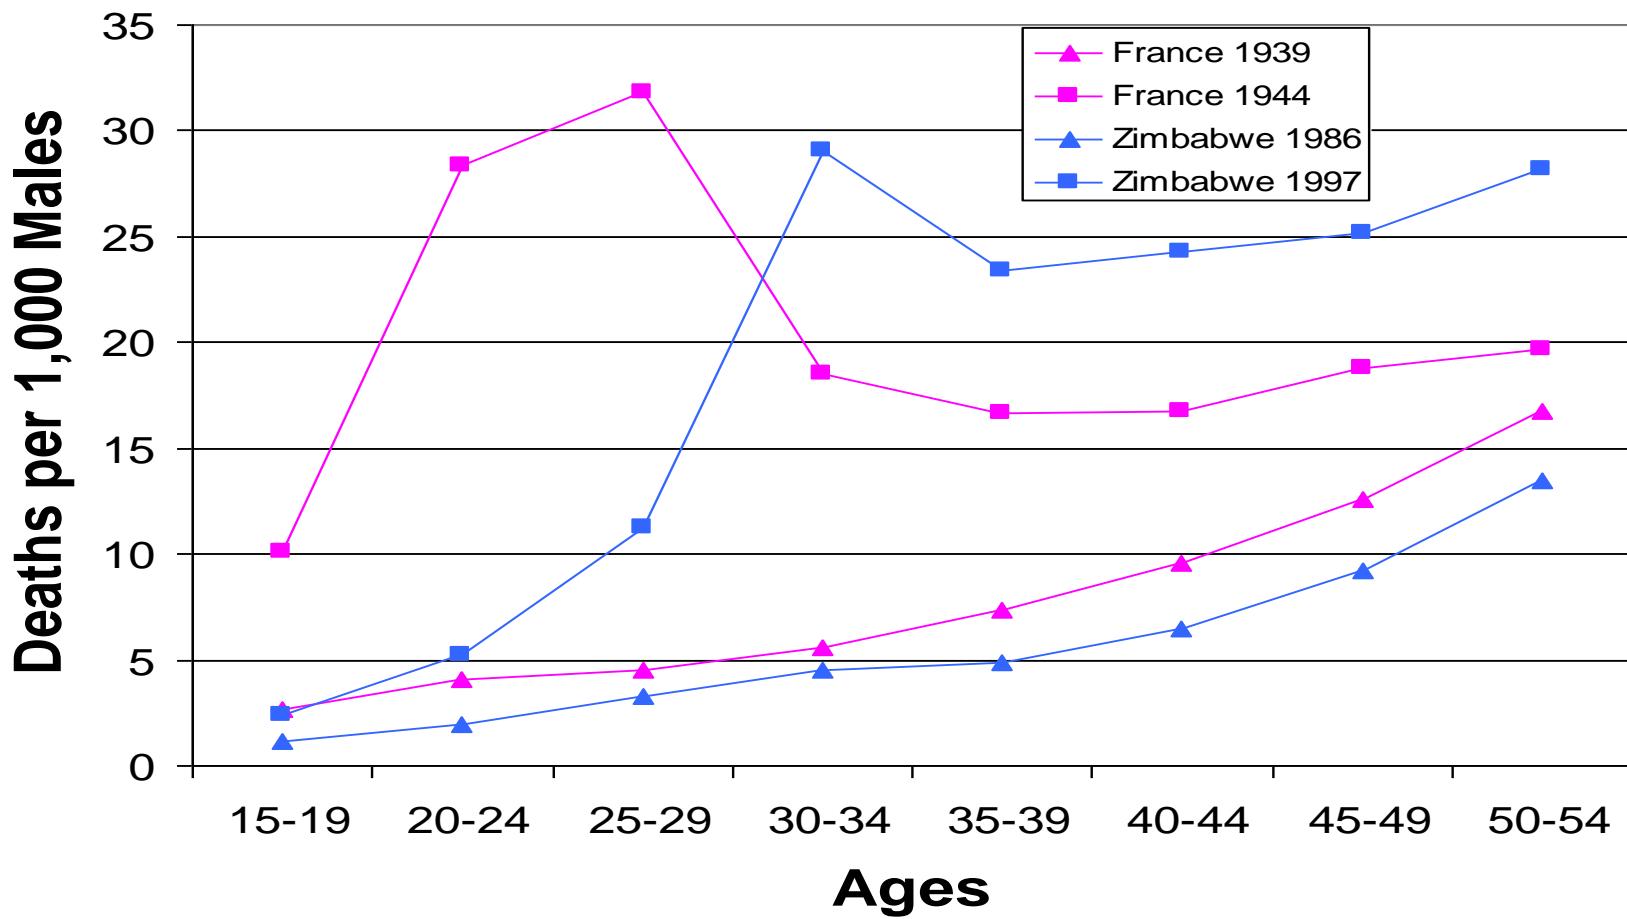

Notes: Calculations are illustrative, based upon simplifying assumptions: 1. Reported parity distributions in 1990 census are accurate; 2. SRB as in previous graphic; 3. SRB not parity-specific; 4. Childbearing completed by age 35 for the 2025 cohort of 60-year old women; 5) Posits the following distribution of childbearing for the 2025 cohort of 60-year-old women: no children, 3%; one child, 25%; two children, 65%; three or more children, 7%.

Sources: Derived from Feeney et. al. 1993, op cit; [China National Bureau of Statistics 2002](#), op cit.

# Countries facing long-term decline in life expectancy at birth (1990 vs. 2010): U.S. Census Bureau Current Projections

Sub-Saharan Africa			Latin America & Caribbean		
	1990	2010		1990	2010
Angola	36.7	35.0	Bahamas	67.2	65.8
Benin	49.1	47.9	Barbados	73.1	71.2
Botswana	66.8	34.1	Dominican Rep.	70.0	66.7
Burkina Faso	46.8	43.5	Grenada	66.9	66.3
Cameroon	50.1	47.9	Honduras	67.5	62.2
Central African Rep.	48.5	41.0	Panama	72.9	72.1
Congo	52.6	47.0	Trinidad & Tobago	69.5	64.5
Djibouti	43.8	43.4	Commonwealth of Independent States
